Product Descriptions

Apple iPad 4 is powered by an A8 chip with second-generation 64-bit desktop-class architecture that can handle even your most demanding apps. Whether you're editing a video, browsing photos, or both, your experience will be smooth and seamless.

The iSight camera in iPad mini 4 delivers advanced optics, an improved sensor, and an Apple designed image signal processor. It also includes handy features like panorama, time lapse video, slow motion, and burst and timer modes. The front facing FaceTime HD camera has been redesigned, too, with a refined sensor and larger pixels for even better low-light performance.
