

Product No. SCDT100

**Da-Lite 85425 Versatol Tripod Projection
Screen (60 x 80")**

Product Details

Although care has been taken to ensure the accuracy of the information provided in this Product Specification, CTR is in no way liable for any errors, omissions or changes in specifications.

Features

The 60 x 80" **Versatol Tripod Projection Screen** from **Dalite** is a simple 18 gauge steel screen that is suitable for all venues - home, business and education. The legs lock automatically when set up and are released by a simple button push. It is activated by an easy to access pull tab that raises and lowers the screen with ease. The screen surface is seamless and flame retardant as well as being mildew resistant, assuring years of trouble free use. At a more than affordable price, the Versatol is a solid alternative when a more sophisticated motorized installation is not permitted or desired.

- ❖ Simple, durable and reliable projection screen for both home and business use
- ❖ Easy to use - sets up and collapses with minimal effort

Product Descriptions

The Da-lite Versatol tripod screen is a medium duty portable screen that easily sets up in less than a minute. It is perfect for the classroom, office or any portable applications. Its one piece design allows for quick set-up and breakdown using a light weight frame for easy transport.

The Versatol is also height adjustable. The Versatol screen retracts into its own metal carry case when not in use and an optional carry bag is available for extra portability. Keystone eliminator tilts the screen forward to compensate for distorted images (standard on all Square sizes except 84"x84").
