

**Product No. ACLOCC**

*Logitech Conference Cam BCC950 Video Conference Webcam, HD 1080p Camera with Built-In Speakerphone*

**Product Descriptions**

Small group video conferencing has arrived everywhere. Now you can instantly transform any office or meeting space into a business-grade small group video conference room. Logitech’s ConferenceCam BCC950 is the first all-in-one video and audio conferencing device designed with small groups in mind.

It combines a freestanding wide-view HD webcam with an enterprise-quality speakerphone in one easy-to-use, computer-connected device. Small groups can run their own video conferences anywhere in the office, without huddling around PC webcams or competing for time on overbooked conference room systems.

The award-winning ConferenceCam BCC950 is making high-quality group video conferencing more affordable and accessible to businesses of all sizes.

**Product Details**

*Although care has been taken to ensure the accuracy of the information provided in this Product Specification, CTR is in no way liable for any errors, omissions or changes in specifications.*

**Features**

- ❖ With 1080p HD video at a smooth 30 frames per second, precision autofocus, a premium Carl Zeiss lens, and advanced auto light correction, can be clearly seen in professional high-quality video—even in low light or backlit conditions.
- ❖ A 78-degree field of view and 180-degree video pan ensure that each member of the small group is seen in your meetings.
- ❖ Logitech ConferenceCam is so intuitive that anyone in the office can easily setup and control video meetings.
- ❖ The built-in full duplex speakerphone & integrated omnidirectional microphone with both noise and echo cancellation
- ❖ Included remote control and console buttons, you can instantly pan, tilt and zoom the camera to focus on the entire team, the meeting leader, or detailed close-ups of whiteboards, documents, design layouts, and product demonstrations.
- ❖ ConferenceCam BCC950 works on virtually any desktop video conferencing and Unified Communications application.
